SPECIFICATION

E-clips Decorative LED Bulkhead Series

Introduction

◀ The E-clips LED bulkhead adopts die-casting Aluminum body and 94-V0 fire-rated PC cover. This fixture provides an alternative to the color changeable. These lights are a perfect answer to complete your outdoor look.

Features

1. Round fixture, with 94-V0 PC cover
2. Long lifetime of 50,000 hours.
3. CCT: 3000K 4000K 5000K 5700K.
4. Built-in LED driver.
5. Triac dimmable and color changeable functions both available
6. High ingress protection rating:IP65, IK10, Class I
7. Ideal replacement for traditional Halogen or fluorescent wall lights.

Application Areas

It is designed for general lighting applications. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

Instructions for automatic test option

1. Once the unit is powered up it will automatically initiate a self test and diagnostics as follows:

- Every 4seconds: Check for battery disconnection, charger board fault, lamp failure and transformer failure.
- Every month: Perform a 3minute duration test.
- Every yeat: Perform a 1 Hour or 3 Hours duration test.
- Automatic test status: Connect the battery, start timing after L' and N connected with mains supply; Memory test time within 7 days available when the mains supply stopped.

All test functions are factory preset and do not need field adjustment.

2. Dual Colour Indicator LED Status Mesnings

- Green Solid On Ready/Normal Operation
- Red Requires Service

•	One flash, 4 second pause	Battery not connected
• •	Two flashes, 4 second pause	Battery short or low battery voltage
• • •	Three flashes, 4 second pause	Charger board fault
• • • •	Four flashes, 4 second pause	Transformer fault
• • • • •	Five flashes, 4 second pause	LED lamp fault

NOTE: After repairing a service fault, press and hold the test button for 2 seconds to reset the flashing indicator light to green.

3. Manual Test

Press test button once	30 second duration test
Press test button twice within 2 seconds	3 minute duration test
Press test button 3 times within 2 seconds	30 minutes duration test
Press test button 4 times within 2 seconds	1 or 3 hours duration test

Note: DALI & 0-10V driver specification, please refer to individual driver datasheet.

Installation Procedure

WARNING ⚡

1. Switch off before installation.
2. Switch on only after complete installation and examination of the circuit.
3. Professional electrician for installation and maintenance only.

Turn Off
Power Supply

Turn Off power supply before starting any installation. Read instructions & check you have all the tools & accessories to complete the installation correctly.

How to install

Step 1

Take out the lamp and accessory.

Step 2

Make the frame, diffuser and back housing separately.

Step 3

Fix the back housing on the wall or ceiling by screws.

Step 4

Choose the color temperature with DIP switch if it's the color changeable version, then connect the wires well.

Step 5

Connect the DC plug (if with Emergency), connect the plugs between the battery and driver), put back the cover to the back plate and fix it by screws

Step 6

Buckle the frame back and fix it by proper tools.

Step 7

Installation finished, turn on the switch.
